ACC Reappointed to the TSA Aviation Security Advisory Committee

Alexandria, VA – The Transportation Security Administration (TSA) announced today that Airport Consultants Council (ACC) President T.J. Schulz has been reappointed to serve on the new Aviation Security Advisory Committee (ASAC). Schulz was one of 31 appointments made to the ASAC by TSA Administrator David Pekoske.

The ASAC provides recommendations for improving aviation security methods, equipment and procedures. Administrator Pekoske said in [a press release](#) that the ASAC “plays a vital role in helping TSA focus on risk-based security.”

“I am honored to continue participating in the ASAC and represent companies and technology manufacturers that play a vital role in securing U.S. airports,” said Schulz. “I am particularly excited to continue my role in leading in the ASAC Security Technology Subcommittee and implementing the [35 recommendations](#) endorsed by the ASAC to improve checkpoints at U.S. airports. This is an exciting time as the TSA begins to transition to the next generation of screening technologies at airports.”

The following members will represent the 19 mandated membership categories on the committee:

The Airport Consultants Council (ACC) is the global trade association that represents private businesses involved in the development and operations of airports and related facilities. ACC is the only association that focuses exclusively on the business interests of firms with airport-related technical expertise. ACC informs its members of new trends while promoting fair competition and procurement practices that protect the industry's bottom line. Founded in 1978, ACC Headquarters is located in the Washington, D.C. area. View this release online at www.ACCOnline.org.
