

ACC Participating Membership

The Airport Consultants Council (ACC) is the global trade association representing firms and product suppliers that provide premier technical expertise in all aspects of airport development and operations.

The airport industry's demand for airport goods and supplies is expanding steadily and offers strong rewards to firms that have intimate insight into customer needs as well as government requirements.

ACC Participating Members are public sector or government-affiliated firms, educational institutions, or associations engaged in activities directly related to the aviation industry. ACC is committed to positioning its Participating Members at the forefront of airport policy, practices and standards. Membership provides unparalleled opportunities to network and develop relationships with airport consultants and product suppliers via ACC's conferences, symposiums, committees and up-to-date information resources.

ACC Services to Participating Members

Showcase Your Expertise

- ▶ Keep abreast of new technical design standards, guidelines and regulations through participation in ACC committees. Committee members interact directly with FAA, TSA and airport clients on the most pressing issues facing the aviation industry.
- ▶ Enhance exposure by speaking at conferences nationwide before airport development experts and by writing articles for *ACC Weekly* and other publications.
- ▶ Provide technical expertise to decision makers on all aspects of aviation legislation, regulation and policy.

Enhance Visibility & Networking

- ▶ Network in unique ways with airport development specialists through ACC committees and conferences.
- ▶ Be included in the Council's on-line directory and printed Membership Directory that is sent to 2,000+ airport and aviation officials, including consultants and product suppliers.
- ▶ Receive up-to-date project solicitations in the weekly *ACC Outlook* e-mail.
- ▶ Be informed of the latest news on the legislative and regulatory front through timely e-mail updates.
